PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student at King Mongkut's University of Technology North Bangkok (KMUTNB), graduate in May 2026 and available for full-time employment. Skilled in front-end and back-end development, including React.js, Next.js, Node.js, and Java Spring Boot, with 7-month internship experience contributing to real-world production-level systems. Experienced in cross-functional team collaboration, technical support, and coordinating with stakeholders to deliver solutions. Eager to grow as a Full Stack Developer in a client-facing, collaborative environment.

EDUCATION

King Mongkut's University of Technology North Bangkok (KMUTNB)

2022 – 2026

Bachelor of Science – Computer Science, Faculty of Applied Science

GPA: 3.32 / 4.00

WORK EXPERIENCE

Software Developer Intern | (May 2025 – Nov 2025)

Sycapt Co., Ltd. • 7-Month Internship • Bangkok, Thailand

- Developed internal banking web applications using Java, Spring Boot, and Thymeleaf, contributing to production-level enterprise software.
- Built and maintained web modules based on the Java Struts 2 framework, ensuring code quality and system stability.
- Built a Telegram Bot to automate operations workflows and real-time system notifications, reducing manual reporting overhead and supporting the Operations team with proactive monitoring.
- Provided technical support to internal teams, resolved system-related issues, and fixed bugs reported by the QA team to improve system stability and operational efficiency.

PROJECTS

Movie Ticket Booking System | Next.js · MongoDB · Stripe · Vercel

- Full-stack web application featuring movie browsing, seat selection, showtime scheduling, payment processing, and promotion management.
- Implemented secure online payments via Stripe and QR-based ticket verification.
- Tech Stack: Next.js, Tailwind CSS, Next.js API Routes, MongoDB, Stripe, Vercel

Novel Reading & Writing Platform | React.js · Express.js · Bootstrap

- Web platform allowing users to publish, manage, and read novels with features including bookmarks, likes, comments, and personal profile pages.
- Designed RESTful APIs using Express.js to handle user authentication and content management.
- Tech Stack: React.js, Bootstrap, Express.js, Node.js

Mobile Classroom App | Flutter · Express.js · PostgreSQL · Figma

- Built a cross-platform mobile application for classroom management featuring course enrollment, assignment tracking, and announcements — modeled after Google Classroom.
- Owned the front-end: designed UI/UX wireframes and prototypes in Figma, then implemented all screens in Flutter with state management and API integration.
- Tech Stack: Flutter, Express.js, PostgreSQL, Figma

Numerical Methods Calculator | React.js

- Interactive web application that computes and visualizes numerical methods with dynamic graphs, simplifying complex mathematical problem-solving.

TECHNICAL SKILLS

Front-End: HTML, CSS, React.js, Next.js, Tailwind CSS, Bootstrap, Thymeleaf (Java), Flutter

Back-End: Node.js, Express.js, PHP, Java Spring Boot (REST API), Java Struts 2

Database: MySQL, MongoDB, PostgreSQL

Tools & DevOps: Git, GitHub, Docker, Postman, Figma (UI/UX Design)
